INTRODUCTORY COMMENTS

This paper accompanies documents submitted to initiate national stage processing of the above-identified international patent application.

The claims of the international application were amended during international preliminary examination and the amendments were annexed to the International Preliminary Examination Report for the international application.

Prior to examination of the application on the merits, kindly amend the claims as shown on the following pages under the heading LIST OF CURRENT CLAIMS. Claims 1-31 have been canceled, including the claims submitted in the annex to the International Preliminary Examination Report (IPER) and new claims 32-66 are presented for examination. Any cancellation of claims is made without prejudice or disclaimer and Applicant reserves all rights to the originally disclosed and claimed subject matter. The claims have been amended to present them in better conformity with U.S. practice.
